## How To Bid on Online Auctions

Timed online auctions have an open bidding date and a closing date & time. Before the auction is open for bidding, you can view lots descriptions & photos. When the auction opens for bidding, you will be able to place bids. Any bids placed in the last minute will add 1 minute of extension time to the timer to allow other bidders to bid again and prevent "sniping".

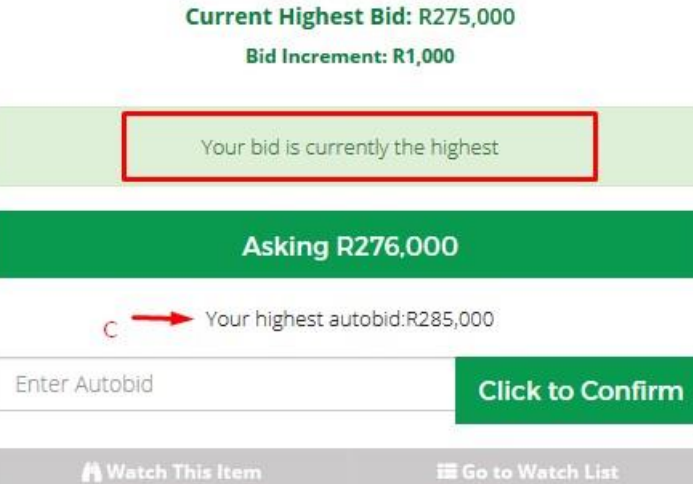

There are two ways to bid on timed auctions:

### Autobids & Incremental Bids

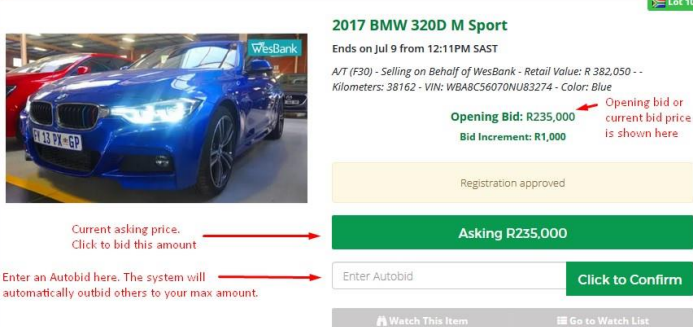

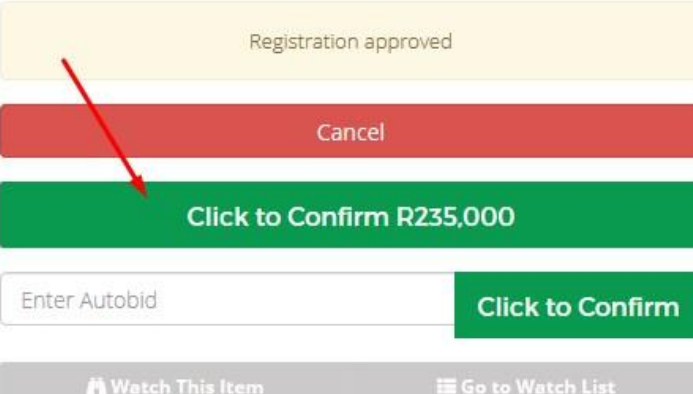

## 1. Bid by Autobids

Autobids allow you to place a max amount you want to spend on a lot. (Excluding VAT & charges, this will be added to your invoice). You can place Autobids (C) and the system will outbid others or bid up to reserve, up to your maximum set amount. Your bid status updates if you are over reserve, outbid or won the lot once it closes.

## 2. Bid by Increments

To bid, click on the Asking Price button & click to confirm or cancel. The Asking price increases by the bid increment on each bid placed.

Once you place a bid, your bid status is shown (A). Your bid status updates if you are over reserve or outbid. You can also look at the bar (B) to see how far you are from reserve.
