How to bid during a timed online auction

A timed online auction has a specified bidding date, with open and closing times. You can view photos and descriptions of the asset prior to the open. There are two ways to participate in a timed online auction:

1. **Incremental bidding** — By clicking on the 'Asking price' button, you add your bid to the auction at a price that is one increment higher than the previous bidder's. The incremental bid varies depending on the asset.
2. **Autobids** — Powerful tool to make sure you don't lose an item! If you have a price in mind for an item, and don't want to go beyond that, you can enter that amount and the system will bid incrementally for you until your limit is reached. If there is a bid higher than your limit, you'll be removed from the bidding.
3. **Important to note:** After you bid, you cannot cancel your bids. Ensure you have funds available to pay for the items immediately after the auction. You are liable for all items you bid on and win. You cannot choose which lots to take after the auction.

How to bid during a webcast auction (coming soon)

Webcast bidders compete online with floor bidders by clicking a 'Bid' button while the auction is live. Unlike a timed online auction, a qualified auctioneer is in control of the bidding increments. Bidding early is recommended as you can't place autobids in the closing. You can enter incremental or autobids prior to the start of a webcast auction.
