END OF AUCTION.

Invoices will be emailed immediately after auction. Please be patient for STC feedback & bank vetting.

How to bid on whauctions.com

WH Auctions conducts live auctions with webcast and online timed auctions. To bid for assets on our current online auctions, follow the following procedure.

Create account, log in, and register

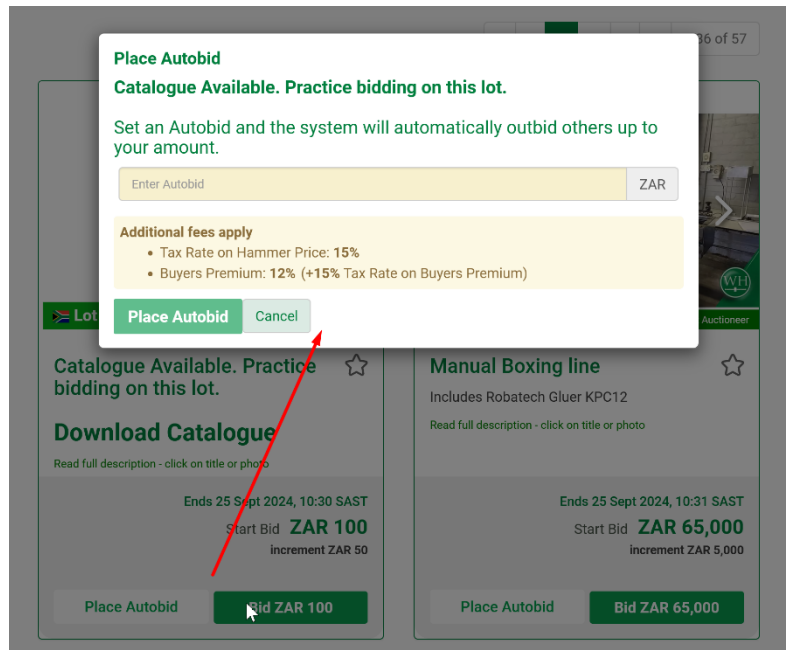

1. To bid in our auctions, you'll first need to create an account. You'll find the 'Create Account' and 'Login' link at the top of our homepage, www.whauctions.com
2. Fill in and submit your details.
3. An activation email will be sent to the email address you specified. (If you can't spot the email in your inbox, please check your junk/spam folders.)
4. Once you've clicked the 'Activate' link in that email, your account will be active, and you'll be able to register for an auction.
5. Each auction requires you to submit your registration information. The application is then reviewed by our staff or the seller for approval.
6. Once approved, you'll receive an email from us to confirm your registration for the auction you've specified. Please note that a fully refundable deposit may be required each time; you'll find these details in your confirmation email.

How to bid during a timed online auction

A timed online auction has a specified bidding date, with open and closing times. You can view photos and descriptions of the asset prior to the open. There are two ways to participate in a timed online auction:

1. **Incremental bidding** — By clicking on the 'Asking price' button, you add your bid to the auction at a price that is one increment higher than the previous bidder's. The incremental bid varies depending on the asset.
2. **Autobids** — Powerful tool to make sure you don't lose an item! If you have a price in mind for an item, and don't want to go beyond that, you can enter that amount and the system will bid incrementally for you until your limit is reached. If there is a bid higher than your limit, you'll be removed from the bidding.
3. **Important to note:** After you bid, you cannot cancel your bids. Ensure you have funds available to pay for the items immediately after the auction. You are liable for all items you bid on and win. You cannot choose which lots to take after the auction.

How to bid during a webcast auction (coming soon)

Webcast bidders compete online with floor bidders by clicking a 'Bid' button while the auction is live. Unlike a timed online auction, a qualified auctioneer is in control of the bidding increments. Bidding early is recommended as you can't place autobids in the closing. You can enter incremental or autobids prior to the start of a webcast auction.
